Gary –

I just wanted to let you know that I contacted John Halk with LDEQ and provided him (and Todd Thibodaux) with the Delta Shipyard data tables on Tuesday Nov 14th. I mentioned that you would like their input regarding any specific clean-up criteria/action levels that should be observed for removal or stabilization activities. I tried to follow up with them on the 16<sup>th</sup> and 19<sup>th</sup> but was unable to reach them. I'm currently working in NY in support of the Hurricane Sandy Response. I will continue to try and reach them this week.

Let me know if there is anything else I can do,
